Subject: [CARPC Sewer Service Area Plan Amendment Request #2403 for Madison "Felland Road"](#)

Dear Mr. Bower:

On May 13, 2024, The Wisconsin Department of Natural Resources (department) received Water Quality Management Letter #2403 from the Capital Area Regional Planning Commission (CARPC), on behalf of the City of Madison. Letter #2403 requested the department's administrative review of a proposed increase in developable land to the Dane County Water Quality Plan. It includes the addition of approximately 81 acres of land, including approximately 12 acres of existing development and right-of-way and 31 acres of proposed environmental corridors, for a net of approximately 38 developable acres to the Central Urban Service Area. Stormwater, sediment control, and other best management practices, including maximizing buffer protection, as described in the amendment documentation should be implemented, as well the recommendations to further protect water quality.

The proposed amendment is hereby approved in accordance with water quality standards under s. 281.15 and 283.83(1m), Wis. Stats., along with CARPC's recommended actions described in Water Quality Management Letter #2403. This amendment is a formal amendment to the state's Areawide Water Quality Management Plan, per ch. NR 121, Wis. Adm. Code. The Madison "Felland Road" Amendment will be forwarded to the U.S. Environmental Protection Agency to meet the requirements of the Clean Water Act of 1987 (Public Law 92-500 as amended by Public Law 95-217) and outlined in the code of federal regulations, 40 CFR Part 35. This review is an integrated analysis action under s. NR 150.20(2)(a)3., Wis. Adm. Code. By means of this review, the department has complied with ch. NR 150, Wis. Adm. Code, and with s. 1.11, Wis. Stats. The approval of this USA amendment does not constitute approval of any other required local, state, or federal permit for sewer construction or associated land development activities.
